SURFACE CLEANER

Formulated and Enhanced with

A PROPRIETARY SILICONE QUATERNARY SOLUTION

My-shield® Surface Cleaner is a unique, fast acting, surface treatment product that will kill most common bacteria and viruses on contact and continues to kill for extended periods up to 28 days at a minimum of 99.99%

- Up to 28 days protection per application
- Kills 99.99% of all bacteria, viruses and fungus

My-shield® Surface Cleaner can provide protection against the transfer of infection and re-infection for extended periods from: common germs, fungus, odors, viruses and air born contaminates. My-shield® Surface Cleaner adopts a three way killing mechanism to bacteria, germs and viruses, not relying on a poison kill as our competitors do, thus ensuring bacteria will not build a future resistance to My-shield® Surface Cleaner.

ALCOHOL, BLEACH & CHLORINE FREE FORMULA

Most surface cleaners available on the market contain compounds that have been found to be highly toxic & corrosive and very hazardous to human health.

QUICK & EASY TO APPLY

My-shield® Surface Cleaner comes in a ready mixed solution with no dilution required. It can be applied to:

Small surface areas: Can be sprayed directly onto a surface or item and allowed to dry. Alternatively wipes or hand held spray packs can be applied directly onto any surface or item.

Large surface areas: (e.g. building interiors) A hydro-static sprayer can be used to easily disperse the disinfectant to all surfaces within a room including walls, ceilings, flooring, furniture etc. Drying time with this application is very quick and the procedure is complete within minutes.

APPLICATION

Designed for use in Aircraft Including Cockpit, Galleys, Carpets, Hard Floors, Bathrooms, Tray Tables, Seats, Carts, By using an electrostatic sprayer you will have created a completely sanitized Cabin to alleviate the concerns of health conscious Flight attendants and passengers while reducing the risk of them contracting air born virus and negating unpleasant odors.

AEROSPACE CERTIFICATION

Boeing D6-7127 Rev P incorporating PDD 6-8 (21 June 12)

Cleaning Interiors of Commercial Transport Aircraft (category Disinfectants)

PRODUCT COMPARISON

My-shield® Surface Cleaner	Other Cleaners
Adopts a three-way killing mechanism	Reliant on a poison kill
Broad spectrum kill against most germs and viruses	Reduced efficacy against some germs and viruses
Extended protection for up to 28 days	Limited protection time up to 15 minutes
Non-flammable and non-toxic	Highly flammable and/or toxic
Non-irritating, non-corrosive	Severe irritant, corrosive and can cause burns or blindness
Anti-static, and can be applied directly onto electrical appliances	Disruptive to electrical equipment
Leaves the treated surface odor free	Not suitable to apply to many surfaces
Environmentally stable (non-leaching)	Unpleasant odors of bleach and chlorine
Rapid & extended 6-Log kill	Environmentally hazardous
